

The **2422** Evolution Low Back adds a very contemporary appearance to any seating environment. Utilizing an outer back of injection molded plastic allows for this chair to be installed in any venue where both economy and good looks are required.

The **2425** Evolution High Back is the perfect choice where aesthetics, comfort and durability come together in a high back chair. The 2425 will enhance the appearance of its environment, be it an arts center, lecture room or the club seating level of an arena.
